

GB-LITTER

GB-Litter is a high-quality activated bentonite for the production of hygienic pet litter. The product is available in any fraction, according to customer requirements, and can be supplied in standard big bags or in individual packaging. Thanks to its excellent absorbency, it effectively absorbs moisture, neutralises unpleasant odours and ensures long-lasting freshness. We also offer the possibility of producing the product under our own private label or according to customer specifications, including customisation of colour, granule size, flavour and other parameters.

PRODUCT BENEFITS

Highly absorbent

Absorbs moisture quickly and effectively, preventing the spread of liquids.

Odour control

Neutralises unpleasant odours to maintain freshness for a long time.

Possibility of individual customisation

The product can be manufactured to customer specifications to meet special requirements.

Private label

A private label option is available, allowing you to tailor the packaging and composition of the product to your brand.

Environmental safety

Contains no harmful ingredients, making the product safe for animals and the environment.

PACKAGING AND DELIVERY

GB-Litter can be supplied in 5, 10 and 25kg bags (private label) or in 1 tonne big bags. Delivery options are available throughout Europe and for export.
